# GETTING STARTED ON YOUR JOURNEY

## **Choose a Fertility Clinic**

This can feel overwhelming with so many fertility clinics out there and you might not know where to start. In addition to reviewing websites found from a quick Google search, The Society for Assisted Reproductive Technology (SART) has a search function for reputable clinics which includes data and statistics for each one. Speak with a few different clinics over the phone or in person to get a feel for the type of resources they offer and support you would receive.

## **Complete Consultation**

Once you have identified the fertility clinic that feels like a fit for you, the next step is to set up a consultation with the clinic. This is where they will gather more information about your fertility journey to this point and review your options with the clinic moving forward.

## **Establish Yourself as a Patient**

In committing to a fertility clinic, you will likely need to complete initial labs and physical exams to establish yourself as a patient. There are screenings and tests required by the FDA and others required by the clinic which need to be completed. Once submitted and the results are reviewed by clinic staff, you can proceed to the more exciting steps around finding and selecting a donor.

## **Determine What Matters to You**

Think about your ideal egg donor. What qualities will she possess or not possess? Consider factors like age, education, ethnicity, hair and eye color, height, and location. Then, go through your list and determine which qualities are “must haves” and which are “nice to haves.” This will allow you to be more focused on what you’re looking for so you can know it when you see it!

## **Begin Browsing Our Database**

We have a thoroughly vetted and diverse database of donors who are eager to help recipient parents grow their family. You will have the opportunity to review profiles and find the right match for you. Contact our team of family building experts to help you identify the perfect donor for you while reviewing our wonderful donor database.

## **Reserve Your Donor**

Once you’ve found the donor for you, you’ll want to act fast and reserve them! Many of our donors get reserved very quickly and we want to ensure you don’t miss out on one that meets your criteria.

“

Our egg donor/embryo creation experience was nothing shy of miraculous. Starting with our client relations manager who went beyond the call of duty in patience and persistence, to our case manager, who steered us confidently, reassuringly, and professionally through the entire egg donor process. We owe a special debt of gratitude to our case coordinator for always being calm and taking on the stress, so we wouldn't have to experience it!

“ Our journey with FSC was great. They really made sure to answer all our questions before and during the surrogacy process. They have a very warm, professional and personal approach, which was reassuring to us and helped us choose them over many other agencies we researched. Our case manager was amazing, making sure that we had all the information we needed at each stage of the process and ensured that we connected to the right legal and related services that we needed. They are also familiar with the top fertility clinics, which was a big help.
